## PRODUCTS OR MACHINERY

The company's objectives are to consolidate and enhance its international presence with the achievement of distribution agreements and the research of partners who share its business values and principles.

During the course of 2011 the TÜV factory inspections for all productions sites will be completed in order to assure its customers the utmost transparency and clarity. 2011 will also see the launching of a commercial business on the American market. On a production level, in order to have a better control on all the manufacturing phases, a vertical integration project will be started with the production of its own brand of solar cells.
