## PRODUCTS OR MACHINERY

As a global leader of thin film transistor liquid crystal display panels (TFT-LCD), AU Optronics is able to provide customers with a full range of panel sizes and comprehensive applications, offering TFT-LCD panels in sizes ranging from 1.2 inches to over 65 inches. AUO has been an active player in the e-paper market and has successfully developed the wide range of small-and-medium-sized e-paper products based on SiPix Microcup® technology.

In addition, AUO is dedicated to being a global green service provider and extended its market to the green energy industry in late 2008. AUO formally founded its Solar Photovoltaic Business Unit in October, 2009. Devoted to the research and development of the green technologies, AUO aims to give the world a brighter future.
