PRODUCTS OR MACHINERY

Automating for your success

Edgewater Automation is a uniquely experienced designer and builder of custom automation equipment based in St. Joseph, Michigan. Our innovative solutions address the challenges our customers face in today's dynamic global manufacturing environment.

Who We Are:

A unified team of highly-skilled and experienced designers and builders of custom assembly and test equipment.

What We Do:

Specialize in automated assembly and test equipment for today's technologies.
Integrate with leading suppliers of robotics, motion control, and vision systems.
Develop new and innovative products and processes.
Design and build complete projects; from simple stand-alone stations to complex integrated assembly and test systems.

How We Do It:

Each turn-key project is evaluated and conceived by an expert team of project and design managers who then work alongside our in-house design and manufacturing teams until completion – all within our 39,000 sq. ft state-of-the-art facility.
We strive for excellent communication, problem solving, and budgeting in our ultimate task of exceeding our customer expectations.
