PRODUCTS OR MACHINERY

Glass racks for transport and warehouse

COMPANY BACKGROUND / HISTORY

The Deltarack concept originated in the practice of the natural stone sector. The basic idea resulted from the need for a practical, lightweight and economical solution to transport marble and granite tablets.

The current market of stone racks exists grosso modo out of two basic systems: separate metal A- and L- frames in all possible sizes, that are placed onto a pallet for transportation, and similar A- and L- frames with an integrated driving system. Both systems are especially bulky, heavy and expensive.

Company Profile of **Deltarack BVBA**

A service of glasssglobal.com, an affiliate of glasssglobal group.
