PRODUCTS OR MACHINERY

Activ Solar is a global company focused on the development and manufacture of solar based technology. Our aim is to harness the vast potential of the sun to meet the changing needs of the future.

With polysilicon production history dating back to 1964, we remain focused on advancement of the upstream portion of the solar value chain as well as selective development of large-scale photovoltaic (PV) solar parks. Our goal is to rapidly bridge this gap to create a fully integrated solar energy platform.

With a unique vision, industry know-how and strategic partnerships, we are dedicated to delivering a sustainable photovoltaic future.
