Country	Hungary

PRODUCTS OR MACHINERY

At present we supply laboratory glass tools and devices upon the order of French and Hungarian companies.

The aesthetic appearance and quality of our products is proved by the fact that our regular Customers include the most renowned wine producers and wine growers of the Tokaj-hegyalja region. Our satisfied French, Italian and German partners regularly place orders at our Company, too.

Our products are solely hand-made by using borosilicate (heat resistant) glass tubes of different diameters and rods. Thanks to the free-forming technique, our products can be special, diverse, taking into consideration the ideas and needs of our Customers.
