PRODUCTS OR MACHINERY

Headquartered in Santa Maria a Monte, in the province of Pisa, Inglas for over twenty five years has been a leader in glasswork, ensuring products meet the highest quality standards. Inglas produces glass to be allocated to different uses, from the boating industry to construction, from furniture to the preparations for public places, bars, ice cream parlours and shops. All Inglas Vetri products are accompanied by a certificate of quality.

GLASS FOR BAR AND SHOP FURNISHINGS
NAUTICAL GLASS
GLASS FOR BUILDINGS

Glass for yachts and motorboats

Inglas is a solid company, on the market since 1974 and since 1988 specialising in curved glass, whose expertise ensures accuracy and quality. The company collaborates with major players in the marine industry making glass surfaces chemically treated to resist wear due to salt and to ensure high comfort within cabins. In the five plants for curvature that the company has available, we can reach a maximum bendable size of 3800x2500 mm and make different types of curves: cylindrical with constant radius, cylindrical connection with one or two planes, cylindrical with several beams, sinuous and opposed, conical and many others. The range of work enables the production of glass for boating with high performance and refined design, suitable for any application on ships: from the windshield to the portholes, to the glass doors that divide the interior cabins and the bridge.
