Address	**Sydney Glass Pty Ltd**
	30 Short Street,
	Bankstown, NSW 2200

Country	Australia

PRODUCTS OR MACHINERY

Sydney Glass Pty Ltd is a family owned business which was founded in 1958. Over the years industry trends have shaped Sydney Glass Pty Ltd into the multi faceted company it is today. The introduction of the *"free fall"* concept for glass handling and the development of *"speed cutters"* for the industry were both Sydney Glass developments.

Our premises at Short St Bankstown are centrally located to service the needs of the glass and associated industries in Sydney.

Our factory is equipped with modern glass cutting and processing equipment and two state of the art Glass Toughening Furnaces capable of toughening glass up to a max size of 3300mm x 6000mm. We also have the capacity to heat soak glass up to 3300mm x 6000mm. This equipment coupled with the most extensive stock range in Sydney and employees with many years glass industry experience allows us to meet our customers expectations.

Company Profile of **Sydney Glass Pty Ltd**
