Address	<b>hyCLEANER GmbH &amp; Co. KG</b> Maybachstraße 6 48599 Gronau
Country	Germany

## PRODUCTS OR MACHINERY

However, PV cleaning poses major challenges for many system operators. This is because cleaning large areas with conventional manual cleaning devices is very time-consuming for large systems and is not feasible for either time or economic reasons. However, an appropriately semi-automated photovoltaic cleaning device takes the physically demanding work off your hands and brings you the best results in no time. With our solar cleaning robots from the **hyCLEANER® solarROBOT** series, we provide you with a fast, simple and efficient solution for conveniently carrying out your solar cleaning via radio control or automation.

### Company Profile of **hyCLEANER GmbH & Co. KG**

A service of glasssglobal.com, an affiliate of glasssglobal group.
