PRODUCTS OR MACHINERY

Our office and production facility is located south of Udine, in the well Industrialized North-East region of Italy, after three consecutive expansions presently covers a total area of 11.000 m². Eurostars Planetary Mixers range is able to meet and satisfy the majority of the modern mixing industry requirements, it being concrete or glass, resin or powders, leading plants manufacturers have selected our product as a standard Planetary Mixer for their installations in the various industries. In the EUROSTAR GTM series we have placed years of experience in mixing into this superb range of planetary mixers. Engineered and built specifically to meet the glass industry requirements of efficient mixing. Our technological improvements and upgrading of the product are a constant part of our policy, with the main objective to always reach the maximum results and efficiency for our Customers.
