Address	<b>DUCCIO DI SEGNA SRL</b> Loc. Pian dell'Olmino, 42 53034 Colle di Val d'Elsa (SI)
Country	Italy

---

## PRODUCTS OR MACHINERY

The fundamental peculiarity of our company is that we cover the full 360° of crystal production.

A complete production which ranges from the semi-automatic producing of items in series to the completely hand made unique creations in both transparent and coloured crystal.

To achieve this wide range of products, everyday our craftsmen use various techniques when making handmade or semi-automatic items together with the fundamental ingredient, real passion.

A sentiment absolutely essential in order to make each creation, that leaves our factory, a Duccio di Segna creation, that is unrepeatable.

Browsing through our web site you will get a detailed idea of our production techniques, from the "artistic work" to "blowing", from the "press" to the "centrifuge", from the "injection" to the "blowing machine" methods.
