Address	MuchColours Via fosso foreste, snc 65015 Montesilvano -Pescara- Italy	
Country	Italy	

## PRODUCTS OR MACHINERY

Essential for the success of the digital decorations are all the accessories available from the catalogue which turn to be the real strength point of Practika.

Thanks to an updated accessory catalogue Practika can be personalized to the most by all users and can therefore provide customized prints for the clients.

All Practika models are perfectly able to decorate all surfaces up to a maximum thickness of 30 cm.

This type of structure allows the machine to be supportive and alternative to the traditional printing processes and decorations as for example serigraphy or offset printing.

Moreover, every Practika plotter use the Dot Variable technology and can work up to 2880 DPI.
