## PRODUCTS OR MACHINERY

Apollon Solar is currently working in the following fields:

Silicon, as a basic material, through streamlined production of solar quality silicon (Photosil), and its adaptation for photovoltaic use;  
Photovoltaic cells, developing a high-performance industrial production line;  
Photovoltaic modules, perfecting a new industrial process for cell encapsulation (Nice);  
Roof integration, producing steel roofing profiles specially designed to optimize module cooling; and  
Marketing, to identify new distribution channels and ways of deploying solar energy.
