PRODUCTS OR MACHINERY

Cellular glass boards

GLAPOR Cellular glass boards PG 700 / 900

GLAPOR is an insulation material suitable for a wide range of applications.

It is manufactured from 100 % recycled glass and foamed by heating with organic activators in a continuous furnace.

After the foaming the insulation material is cooled down in a highly specialized process. Then the cellular glass boards are cut to the desired length and packaged for shipment.

GLAPOR cellular glass boards convince by their outstanding properties such as high compressive strength, good thermal insulation and non-combustibility.

Company Profile of **GLAPOR Werk Mitterteich GmbH**

A service of glasssglobal.com, an affiliate of glasssglobal group.
