Address	Shimadzu Precision Instruments, Inc. 2340-C Walsh Ave. 95051 Santa Clara, CA
Country	USA
State	California

PRODUCTS OR MACHINERY

Components and accessories (suppliers to the glass machinery industry).

Toroidal Mirrors TRseries

Highly-Smoothed Surface, High Reflectance, High Quality

Shimadzu toroidal mirrors are manufactured by polishing optical glass with highly-smoothed surface. Standard coating of Aluminum brings high reflectance in ultraviolet region. The newly developed production method secures continuous delivery of stable quality products. Non-Use of Specific Chemical Substances*1

*1. RoHS Directive: Directive on the restriction of the use of certain hazardous substances (mercury, cadmium, lead, hexavalent chromium, PBB and PBDE) in the EU. (EU Directive 2002/95/EC)

Toroidal mirrors are:

Toroidal mirrors are aspherical mirrors where each curvature of orthogonal two axes (horizontal and vertical one) are different. Barrel or Tire shaped with a rotation axis are available.

Difference to spherical mirrors

When a spherical mirror focuses a light from a point source, there appears astigmatism. Toroidal mirrors, however, minimize such astigmatism and make it possible to focus on a small spot. The toroidals are ideal for focusing and/or aberration correction devices for spectroscopes.

Company Profile of **Shimadzu Precision Instruments, Inc.**

A service of glasssglobal.com, an affiliate of glasssglobal group.
