PRODUCTS OR MACHINERY

Vitaprint® is a new and unique method for applying a digital print in glass. With the unlimited possibilities of digital print, designers can play with colours, transparency and opacity. Apply Vitaprint as a unique wall decoration (photo and print), stained glass, glass separation wall, sliding doors, tiles or flooring. Vitaprint® is much more scratch resistant than films or coatings because the image is in the glass. Moreover, it is safe and hygienic.
