## PRODUCTS OR MACHINERY

The Glass Division provides complete design, engineering, procurement and construction services to almost every phase of the glass industry in the mechanical, refractory and process fields. We supervise all aspects of a project.

Our projects range from service calls on a small furnace to the complete range of furnace rebuild and installation as well as concrete finishing and millwright operations. We also provide hot repair.

To assist in the maintenance of your plant, we also provide furnace audits. Our attention to detail and precise workmanship will help provide a long life cycle for your furnace
