Country	Germany

PRODUCTS OR MACHINERY

Surface coating materials

As substitute for time-consuming and costly machining of surfaces such as etching or sand blasting, PETER-LACKE offers high quality and persisting solutions that imitate an effect perfectly. Either in colour or transparent.

Surfaces refined with PETER-LACKE products are mor resistant against chemicals and wear. Moreover, differently to non-coated surfaces, annoying finger prints are avoided.

Coloring of glass surfaces or container glass with PETER-LACKE products are an economical alternative to coloured glass.

Use of our glass lacquers is favorized in interior design segment for furniture, cosmetics packaging or in the household and decoration segment.

Company Profile of **PETER-LACKE GmbH**

A service of glasssglobal.com, an affiliate of glasssglobal group.
