PRODUCTS OR MACHINERY

Owens Corning is a world leading manufacturer of glass-based non-woven media.

The Owens Corning Non-Woven Technologies business possesses a wealth of experience, expertise and technology but what we are most proud of is our ability to listen to our customers. It is this ability that allows us to create added value for our customers and reduce cost in the total value chain.

Nearly all of the non-woven products we manufacture are unique for each customer and application. Our business model is grounded in servicing individual customer needs. We take pride in working closely with our customers to develop value-added solutions and create partnerships that can transform markets.

Owens Corning offers a wide range of glass mats to be used as facers for acoustical ceiling tiles. Our facers can be used on ceiling panels made from glass wool, mineral wool, wet felt, wood fibers and gypsum.

Our production process allows us to produce glass non-wovens with an optimum fiber distribution which meets the highest aesthetic requirements of the industry.
