Address **Moen Glass**  
81-83 Rushdale St,  
Knoxfield VIC 3180

Country Australia

## PRODUCTS OR MACHINERY

Insulated Glass Units (IGUs) are tailored double glazing solutions for year round comfort wherever you live. Australian Glass Group VIC is accredited to AS4666 Insulating Glass Units and AS4667 Quality Requirements for Cut-to-Size and Processed Glass.

Custom Laminates including Sky Glass, are a beautiful solution for frameless balustrades where an uninterrupted view, handrail free appearance is desired.

Toughened Safety Glass is ideal for applications like showerscreens, splashbacks and areas where exposure to high temperatures is a concern. Our Tempershield toughened glass is manufactured within the stringent Australian licensing requirements for the manufacturing of A Grade safety glass (AS/NZS 2208 – 1996 – Safety glazing materials in buildings.)

Windows and Doors  
Splashbacks  
Showerscreens  
Balustrades  
Mirrors  
Pool Fences

### Glazing for Energy Efficiency

Windows with standard glass provide little to no insulation properties, and are the thermal weak point in buildings. In an average home, 40% of heat loss and 87% of heat gain is through inefficient glazing\*.

Single Glazed Glass

Insulated Glass Solution (IGU)

An insulated glass unit (IGU) more commonly known as Double Glazing is a combination of double or triple glass panes separated by a vacuum or gas filled space to reduce heat transfer across a part of the building envelope into a single window system. This adds thermal resistance reduces the amount of heat escaping in winter and keeps your home at a more comfortable temperature.

Australian Glass Group recommends following IGU products for windows and doors:

Insulglass Clear IGU

Insulglass Plus

Insulglass Select

Insulglass Max

Insulblind

Laminated Glass solution

Audioshield

Tempershield
