## PRODUCTS OR MACHINERY

HCP are globally recognised for their ability to provide large and small customers with turnkey 'cradle to grave' support on the design, development, qualification and manufacture of customer originated or HCP designed bespoke products.

From initial design creation, development of 2-D and 3-D illustrations, supported by functional high quality models, through to 'proof of principle' prototype component molding and subsequent fully documented qualification programmes, HCP's project teams will provide an assured and reliable process of bespoke product development.

Whether realizing a customers design or creating a new design based on the customers brief, HCP's team of experienced designers, engineers and project teams offer an exemplary and cost effective approach to bespoke product development.
