PRODUCTS OR MACHINERY

Engineering solutions, implemented by highly qualified professionals. For our customers we offer individual and custom-made products.

Innovative facade solutions from a single supplier, from idea creation to its implementation.

Unitised facades

This system consists of vertical and horizontal aluminium profile units, assembled and prepared at the factory. Such facades are transported to the construction site already fully assembled and filled. On the construction site, they are attached to the building structure. Prefabricated facades are used for technically challenging and special projects, reconstruction or construction of completely new buildings with fast and reliable results in mind.
