## PRODUCTS OR MACHINERY

The specialty of the San Vito al Tagliamento factory, born as Convetro, is the production of pressure-tight bottles for bottling sparkling wine and large containers, which can reach the capacity of 30 liters.

The San Vito furnaces are dedicated to the production of glass in classic and timeless colors as the half-white, the green oak and the Antyco and champagne green. Their bottles have held the effervescence of the best Italian and French sparkling wines, as well as those of small local producers, with the elegance of a material recognized throughout the world.
