PRODUCTS OR MACHINERY

A complete reinvention of electrochromic technology, Halio smart-tinting glass eliminates the issues that plagued older products:

Natural Color. In its clear state, Halio looks like natural glass, and it tints to neutral, cool gray shades.

Fast and Uniform Tinting. Halio starts tinting within seconds and switches 10 times faster than older generation products. Tinting is uniform across any glass sheet size, allowing unlimited tint level options.

Customizable. Halio gives architects complete design freedom and flexibility. They can specify coatings, glass color, and other features to achieve performance and aesthetic goals.
