PRODUCTS OR MACHINERY

By extensively combining the available in-house manufacturing technologies Oplatek is capable of developing new photonics solutions. In this way we creatively support projects in which an individual photonics solution is sought.

As an optical fiber provider, Oplatek manufactures and delivers optical fiber components up to complete assembled units. We offer standard designs as well as components or assemblies as individual solutions.

Being an expert in the three core techniques molding, mechanical machining and coating Oplatek has become a reliable provider for optical elements that are utilized in various lighting applications and demanding environments.

Company Profile of **Oplatek Group Oy**
