PRODUCTS OR MACHINERY

IZOVAT TM basalt thermal insulation is a range of the mineral wool products manufactured by «OBIO» LLC with the help of the modern high-tech production line.

Basalt rock is used as the main raw material for production of non-combustible IZOVAT TM thermal insulation. Karbolit – urea resins, that doesn't contain free phenol, is used as the binder. The content of organic matter is 2 – 5% by weight.

IZOVAT TM basalt thermal insulation density ranges are : 30-225kg/m3, and thickness ranges are : 20-300mm. All IZOVAT TM products are certified.

IZOVAT TM products are designed for:

- thermal insulation of the binding envelopes
- soundproofing and acoustic absorption
- building structures fireproofing
- thermal insulation and acoustic absorption of engineering equipment(air ducts and pipelines)
- sandwich- panels production
