PRODUCTS OR MACHINERY

In the shop, glass decorations give glasses, goblets and vases an elegant Bohemian design. ... We use a variety of handcrafted traditional and original modern decorating techniques. The most famous are: pantograph, diarite, dusting, painting on glass. Pantographic technology consists of a production line of seven machines. Melted beeswax is applied to the product. Then the glasses are placed on a programmed pantograph, the decor is engraved on the wax pantograph. After that, the product is immersed in acid, where it is subjected to an etching process. Then the glasses are cleaned of wax in a high-temperature sink. The process is completed by a belt kiln for firing glass.

Company Profile of **Crystalex RUS LLC**

A service of glasssglobal.com, an affiliate of glasssglobal group.
