PRODUCTS OR MACHINERY

Our company is based in Spain and manufactures, distributes and designs frameless glazing system enclosures in 50 countries.

The great success in the Spanish market and our previous experience in the sector allowed us to design two very successful products: CLAROFLEX® PIVOT and the CLAROFLEX® SLIDE multi-track sliding system.

Our products are designed with a single goal: to obtain a simple, quality product capable of guaranteeing maximum performance.

Therefore, we offer multiple advantages over other similar systems in the market:

PIVOT

The weight rests on the lower or bottom rail: compatible with all types of pergolas and mobile structures, minimizing the risk of failure, no overloading.

Excellent technical and acoustic insulation.

Simple production. Easy to install. Maintenance free.

Great adaptability and regulation: Up to 76 mm.

SLIDE

Ability to add extra tracks as needed (unlimited tracks)

50% reduction in working times compared to other systems on the market.

Adjustment capacity up to 25 mm.
