Address	Termeca Choquenot Avenue d' Ecolys 2 Bte 14, 5020 Suarlée
Country	Belgium

PRODUCTS OR MACHINERY

Float

Annealing tunnel system and mechanical drive with unique thermal and mechanical performance dedicated to your process, aiming at minimizing energy consumption and maximizing yields.
Premix gas combustion system allowing high reduction of installed power of float bath aiming at CAPEX reduction.
Complete range of tailor made float bath auxiliaries to suit your process, from architectural, automotive, ultra thin and borosilicate glass.

Solar

Annealing tunnel system and mechanical drive with unique thermal and mechanical performance dedicated to your rolling process.

Container

Annealing tunnel system with belt drive equipped with premix combustion system.

Automotive

Heating and cooling process equipment for bending applications as well as moulds conveying system.
Complete pre-firing furnace.
Glass charging and discharging hardware along with full automation.

Foam

Complete foaming furnace system for continuous foam glass process equipped with premix combustion system and belt drive system.
Complete annealing tunnel system for continuous foam glass process equipped with adapted electrical heating system and belt drive system.

Company Profile of **Termeca Choquenot**

A service of glassglobal.com, an affiliate of glassglobal group.
