ball valves
and our accessories.

COMPANY BACKGROUND / HISTORY

MEDENUS stands for quality "Made in Germany". Founded in 1972 by Dieter Medenus in Rösraath near Cologne. A customer-oriented product portfolio was developed with gas pressure regulators, safety shut-off valves and safety relief valves.

Dieter Medenus retired from the company in 2004. The production facility was relocated to the company's current headquarters in Olpe, South Westphalia. From 2019 to 2020, a new headquarters was built here with a focus on further optimized delivery times and the best customer service.

We deliver our complete product delivery dates. Our location in centers in Frankfurt or Rotterdam

In our pursuit of customer orientation and progress, we have expanded our product range to include pilot-controlled gas pressure regulators and cellular gas filters. In cooperation with the renowned RWTH Aachen University, we have dedicated ourselves to the topic of hydrogen supply and are active in this important future market.
