PRODUCTS OR MACHINERY

Supplier of Casting and Rolling Technology, Glass Drawing Technology, Profile Glass Machines, Transportrollers, Tablerollers, Lehrrollers, Orificerings, Shearblades

Castglass machines

RUREX is amongst the leading manufacturers for low iron solar panel glass forming machines.

New generation of RUREX machines for 2 mm solarglass, pattern, wire and figured glass. Frequency controlled gears. Synchronisation of main rollers. Maintenance free bearings. Electronic controlled glassthickness adjustment. Emergency quick lift out for top roller. Wire unwinder system with tension/pressure leading roller.

Profileglass machines

Infinitely variable RUREX machine for all profile widths between 220 - 500 mm. Frequency controlled gears. Maintenance free bearings. Profiles with wire net and length strings. Colour coating. .

Rollers

RUREX is producer and supplier for all types of rollers.

Main rollers: plain and pattern
Transportrollers

Tablerollers
Lehrrollers

Shearblades

RUREX is worldwide supplier for shearblades in a special anticorrosive alloy: — due to our hightech production process you will obtain a maximum in EFFICIENCY, PRECISION and QUALITY.

On request RUREX supplies a various sorts of special models (waveshaped cutting edge, cooling slots or drills, bigger radii, grinded fixing areas and others).

Also available shear blades in tungsten carbide.

COMPANY BACKGROUND / HISTORY

RUREX-Stahl today is a world wide operating manufacturer for the glass industry.
With approx. 15 employees in Gelsenkirchen the turnover in 2015 was 3 million EURO.

The export rate was more than 75% in 2015 (more than 60% in non EU countries).

RUREX is market leader in the manufacturing and commissioning of complete glass production lines for solar, figured and profiled glass.

For the container glass industry we are supplying worldwide our heat- and wear resistant spare parts, such as springs, dead plates, shear blades in many special designs, especially made for high-speed IS- machines.
