Contact 2.	<a href="#">Mr. Bernhard Saftig</a> Head of vertical glass Phone: 0049 721 595 4974 Fax: 0049 721 595 4477

## PRODUCTS OR MACHINERY

The extensive portfolio of Industrial Software and Automation seamlessly connects the virtual and real worlds for the glass industry – also with cloud-based systems, as appropriate. This allows glass manufacturers, plant and equipment manufacturers to integrate and digitalize their entire value chain – including their suppliers and partners.

Our teams combine glass- and industry-specific knowledge, from raw materials to the finished product, with expertise on the field, automation, and process management levels as well as the corporate leadership level and its specific IT requirements. We recommend a holistic approach for increased transparency in glass production and further processing and, hence, increased availability, higher productivity, and improved cost efficiency. Whether as consultant or implementer - we are happy to be at your side in the role that you desire.

## COMPANY BACKGROUND / HISTORY

**Siemens AG** (Berlin and Munich) is a global technology powerhouse that has stood for engineering excellence, innovation, quality, reliability and internationality for more than 165 years. The company is active in more than 200 countries, focusing on the areas of electrification, automation and digitalization. One of the world's largest producers of energy-efficient, resource-saving technologies, Siemens is No. 1 in offshore wind turbine construction, a leading supplier of combined cycle turbines for power generation, a major provider of power transmission solutions and a pioneer in infrastructure solutions as well as automation, drive and software solutions for industry. The company is also a leading provider of medical imaging equipment – such as computed tomography and magnetic resonance imaging systems – and a leader in laboratory diagnostics as well as clinical IT. In fiscal 2014, which ended on

September 30, 2014, Siemens generated revenue from continuing operations of €71.9 billion and net income of €5.5 billion. At the end of September 2014, the company had around 357,000 employees worldwide. Further information is available on the Internet at <http://www.siemens.com>.
